Rich table cells

A cell can hold any flow block, not just text: images, QR codes, vector charts and even a nested table are laid out inside the padded cell box, and the row grows to whichever cell is tallest. Rows stay atomic, so pagination is unchanged.

Account	Mark	Scan	H1 trend	Packages		Revenue
Northwind Retail Enterprise · EMEA				Core Add-ons	**14** **6**	**$1,284,000**
