All chart kinds

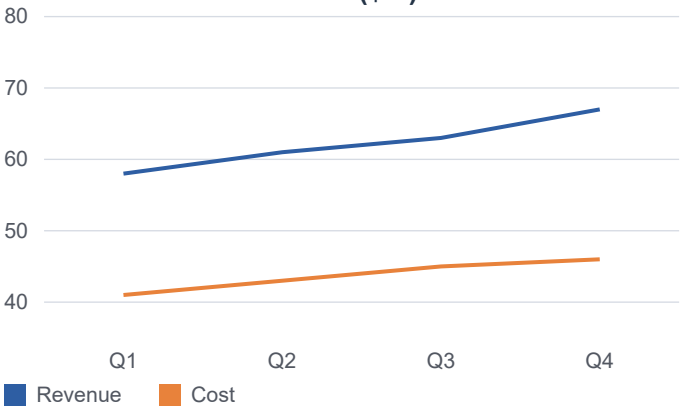

Every vector chart the engine draws, from one page of declarative data-chart markup: bar, line, area, pie, donut, combo, waterfall, scatter, bubble, radar, gauge and heatmap — plus high–low range bars and horizontal reference lines.

Cartesian basics

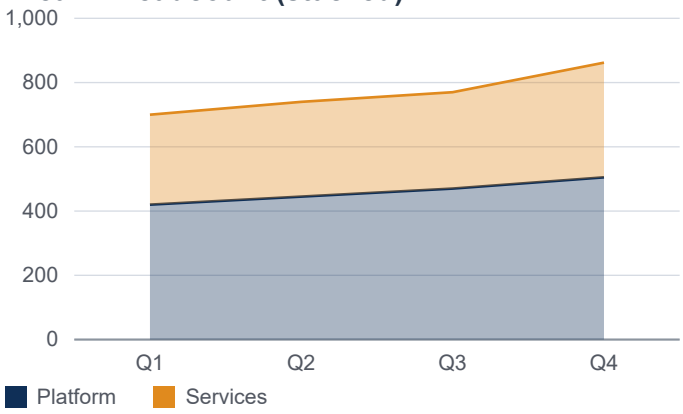

Bar — Revenue by quarter ($M)

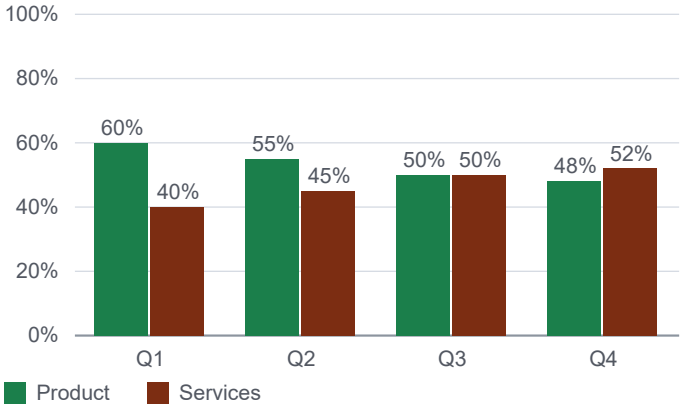

Line — Revenue vs. cost ($M)

Area — Headcount (stacked)

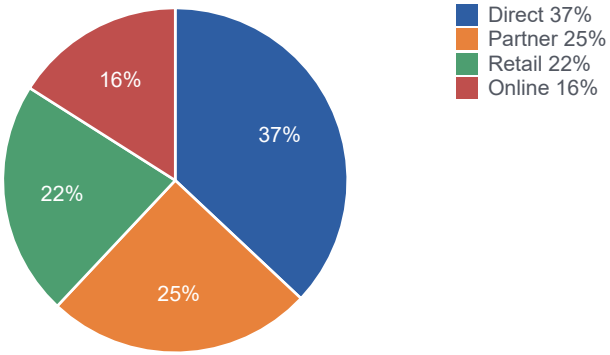

Bar — 100% stacked mix

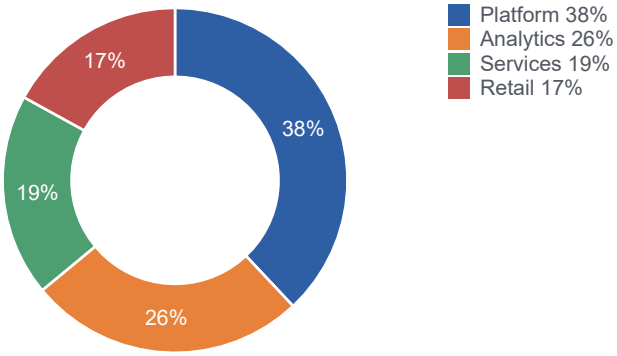

Pie & donut

Pie — Channel mix

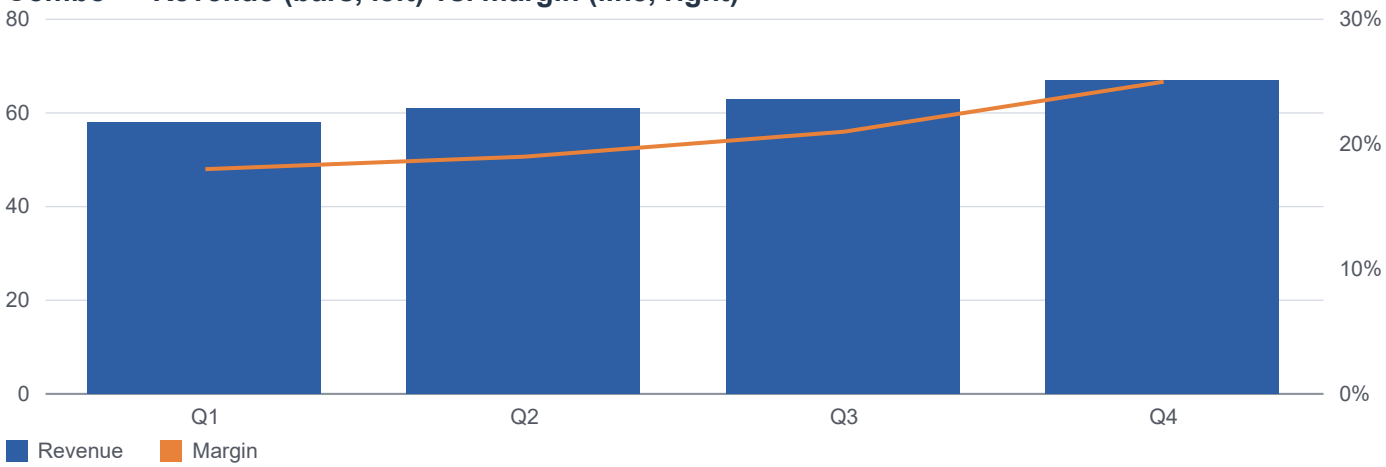

Donut — Revenue mix

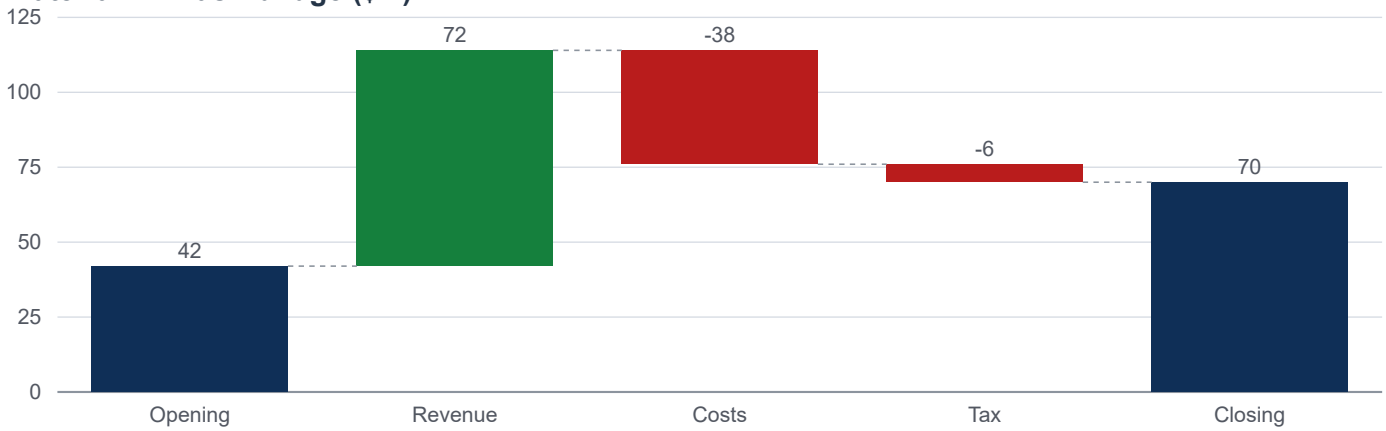

Combo & waterfall

Combo — Revenue (bars, left) vs. margin (line, right)

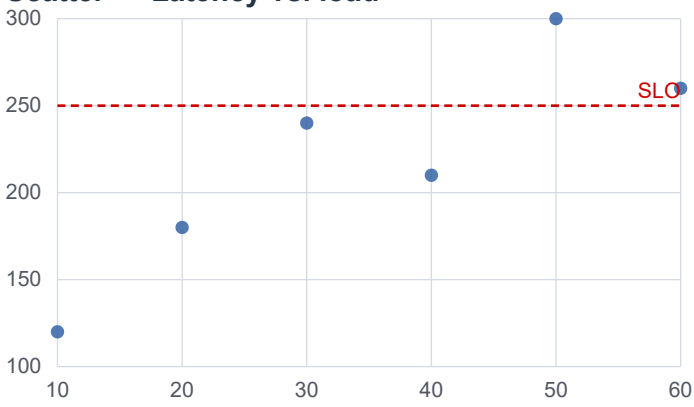

Waterfall — Cash bridge ($M)

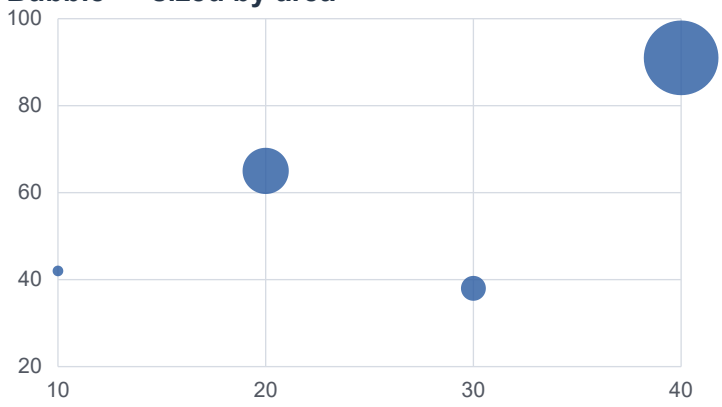

Scatter, bubble & reference lines

Scatter — Latency vs. load

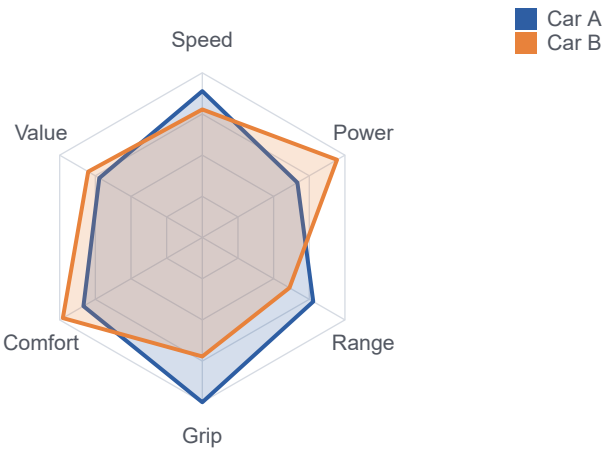

Bubble — sized by area

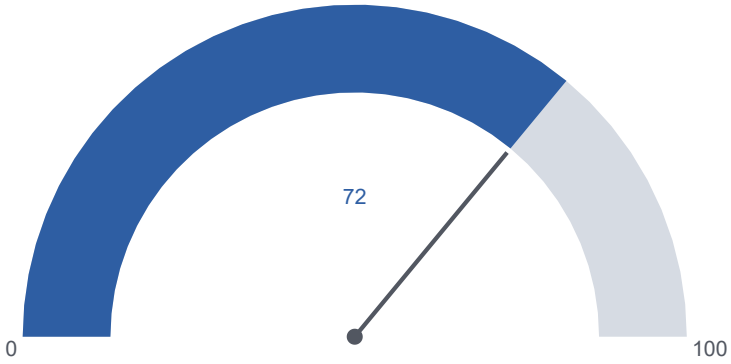

Range bars

Radar, gauge & heatmap

Radar — Vehicle comparison

Gauge — SLA compliance

Heatmap — Weekly activity by shift
