SVG vector images, flexbox & new chart kinds

Everything on this page renders as real vector PDF: inline <svg> art, a .svg <img>, a display: flex layout and the new scatter / bubble / radar / gauge / heatmap charts with range bars and reference lines.

Flexbox layout

A display: flex row with justify-content, gap and per-item flex.

REVENUE	YOY GROWTH	HEADCOUNT
$72.1M	+18.4%	1,240

Northwind verified — the SVG above is drawn as real PDF paths, and the text sits beside it in the same flex row.

A wrapping flex row (flex-wrap: wrap); the tall chip uses align-self: flex-end.

SVG vector images

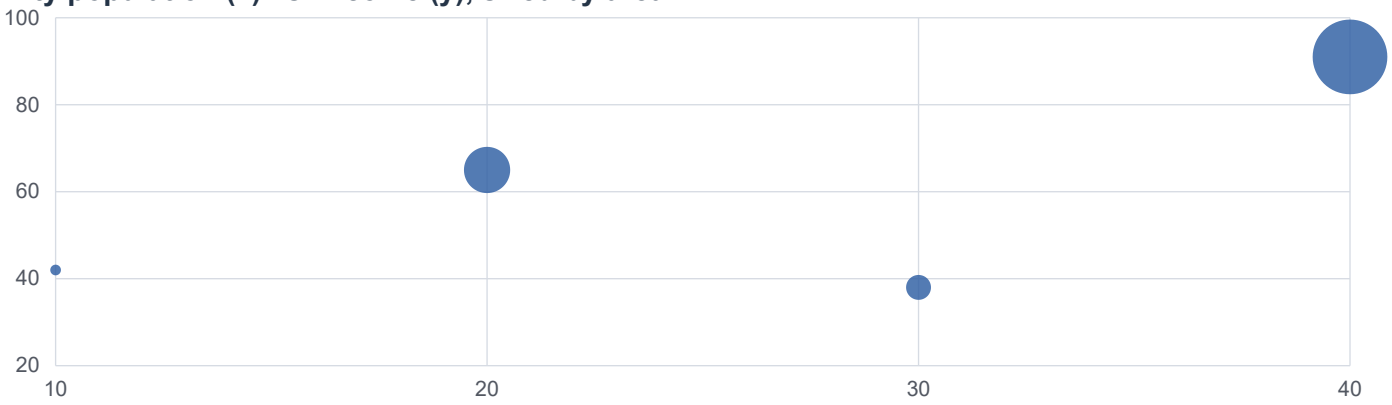

Left: an inline <svg> star. Centre: a fill-rule="evenodd" ring with a real hole. Right: an <img> pointing at a .svg file.

Scatter & bubble

City population (x) vs. income (y), sized by area

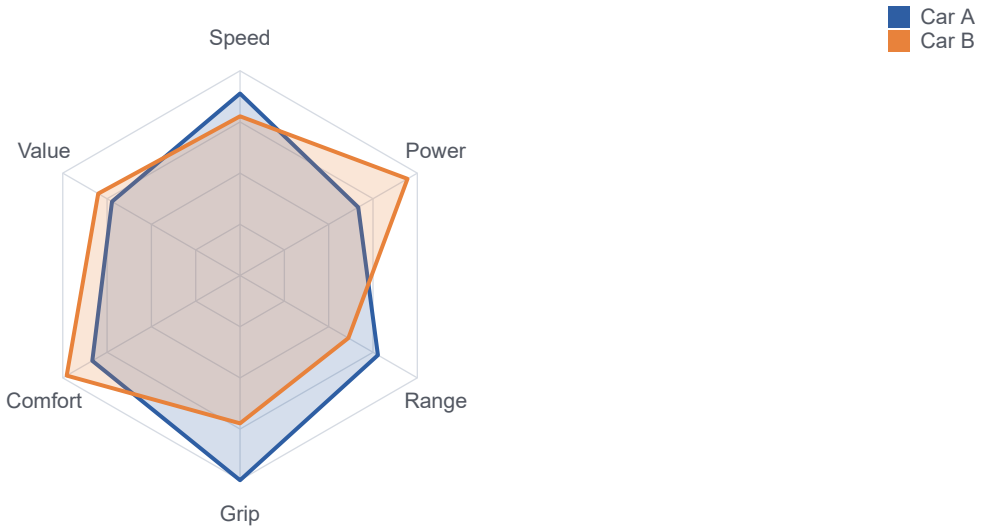

Range bars & reference lines

A bar chart with data-range="true" draws each bar between its low/high endpoints; a red reference line marks the heat warning.

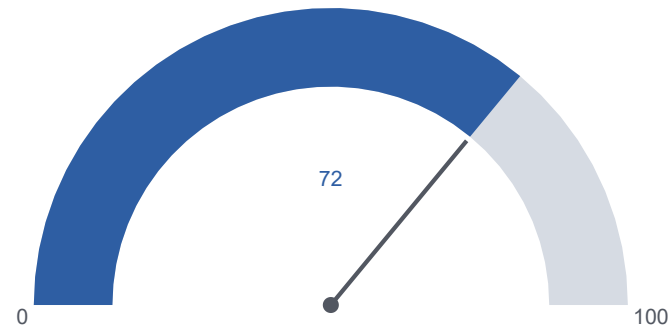

Radar

Vehicle comparison

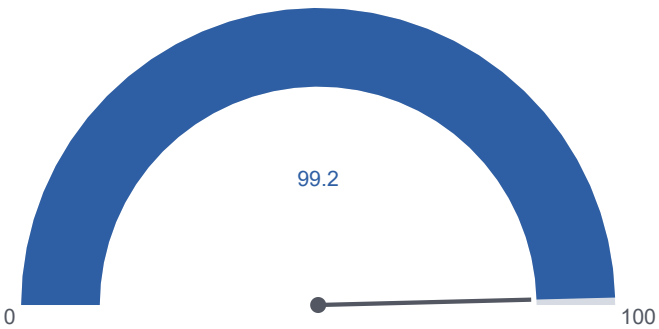

Gauge

SLA compliance

Uptime %

Heatmap

Weekly activity by shift
